

<b>Year</b>	4
<b>Date:</b>	05.07.19
<b>Due Date:</b>	10.07.19
<b>Routine Homework</b>	<p><b>Routine Homework</b> This week I've completed:</p>
<b>Tick box</b>	<p>x Tables and Divisions      Spelling Practice      Reading Aloud      Mathletics:</p> <p style="text-align: center;"> <input type="checkbox"/>                      <input type="checkbox"/>                      <input type="checkbox"/>                      <input type="checkbox"/> </p> <p><b><u>Please bring in Routine Homework every Wednesday.</u></b></p>
<b>Reading aloud/</b>	<p>Please read <b>aloud</b> for <b>15 minutes</b> to an adult, <b>Monday to Friday</b>. Please ensure that an adult signs your reading log. Pupils: Please write 2 or more comments a week.</p>
<b>Maths Mathletics</b>	<ol style="list-style-type: none"> <li>1. Maths- Please complete practice book: <b>Classifying triangles pages 102-104</b></li> <li>2. <b>Complete the questions you are able to do.</b> Put a star next to any you find too tricky.</li> </ol> <p>Tips:</p> <div style="display: flex; align-items: center; justify-content: space-around;">    <div style="border: 1px solid orange; padding: 2px; display: inline-block;">  </div> <div style="margin-left: 20px;"><math>7 \times 4 =</math></div> </div> <p>Read aloud    Look and underline words    <b><u>Draw a diagram</u></b>    Model    Workings out!</p> <div style="display: flex; justify-content: space-between; margin-top: 20px;"> <div> <p>I've completed:</p> <p>Times tables/division practice:</p> <p>1 ✓ 2 3 4 5 6 7 8 9 10 11 12</p> </div> <div> <p>I've completed:</p> <p>Mathletics sessions</p> <p>1 2 2+</p> </div> </div>
<b>Additional information</b>	<p>Please remember:</p> <p>P.E Kit in school at <b>all times</b></p> <p>Recorders and homework on <b>Wednesday</b></p> <p>Swimming on <b>Thursday</b></p> <p>Reading Log in on <b>Friday</b></p>
<b>Next Week's Topics:</b>	<p>Maths: Statistics - deducing facts about shapes ; symmetry</p> <p>English: Write a folktale - invention stage</p>

### By Side

**Equilateral Triangle**  
has three equal sides

**Isosceles Triangle**  
has two equal sides

**Scalene Triangle**  
has no equal sides

A triangle with a right angle  
is also called  
a right angled triangle.

### Share

- a) When folded in half, both the square and the rectangular pieces of paper create types of triangles.

Ambika and Lee have made triangles.

- b) Both triangles have a right angle.

The square makes a triangle that has two equal sides and two equal angles. This is called an **isosceles** triangle.

The rectangle makes a triangle that has three unequal sides and three unequal angles. This is called a **scalene** triangle.

There is another type of triangle.  
A triangle that has three equal  
sides and three equal angles  
is called an **equilateral** triangle.
